The Lawrence High School offers a varied field of study for all its students. The college preparatory, business, nursing, manual arts, and home economics courses comprise the curricula for students wishing to specialize after graduation. A general course is also available to those students who don't plan on entering college. Subject matter within these courses is sometimes similar in name; however each course centers its concentration to meet the needs of the students.

Civics, physical education, choral music and public speaking are required of all students to insure complete development of the person both physically and mentally.

WORLD GEOGRAPHY

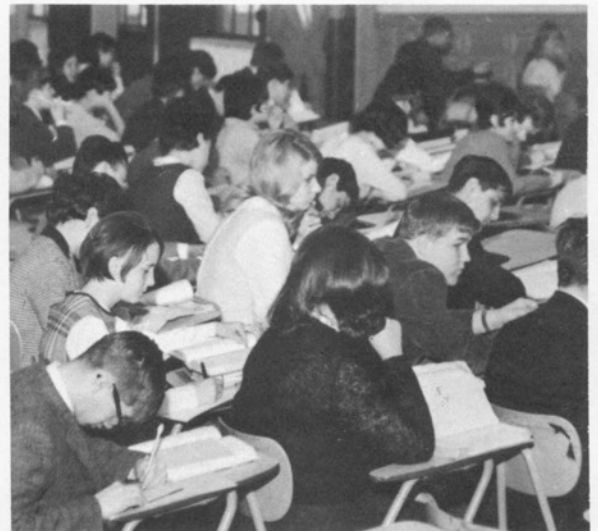

Constantly striving for quality of product, Lawrence High has raised its standards and adopted modern methods and equipment. Accelerated courses are available for college preparatory students, enabling them to compete with others of equal ability.

Through such diversified and comprehensive study, the graduate of Lawrence High School is adequately prepared to meet the challenges of our changing society.

For students interested in foreign languages, the Lawrence High School offers six languages to students of all courses. French, German, Italian, Latin, Russian and Spanish cover a wide scope of linguistic opportunities.

Tape recorders, records, and clubs, organized by the students, guide the student to a better understanding of his chosen language and allow the teacher to present varied instructional methods.

The school science program has made ample use of National Science Foundation grants to equip its laboratories with the most modern equipment available.

The student interested in science begins his high school career with a course in general or earth science, then continues with biology, botany, chemistry, physiology, and physics.

After completing such a curriculum, the student is in an excellent position to compete in today's highly competitive college science and technical programs.

Working closely with the science department is the mathematics department whose courses take the students through fundamental algebra to highly complex solid geometry and trigonometry. For the terminal student the mathematics department offers courses which will prepare him to take a place in our modern society.

The Lawrence High School was founded 117 years ago. It moved to its present location in 1900 when the "old Building" was constructed at the corner of Lawrence and Haverhill streets. The rising population of the city and subsequent increasing enrollment soon taxed the capacity of the building and in 1924 the James D. Horne annex was opened to provide adequate classroom space. While there have been no additional buildings constructed since that time, renovations have kept pace with the changing times.

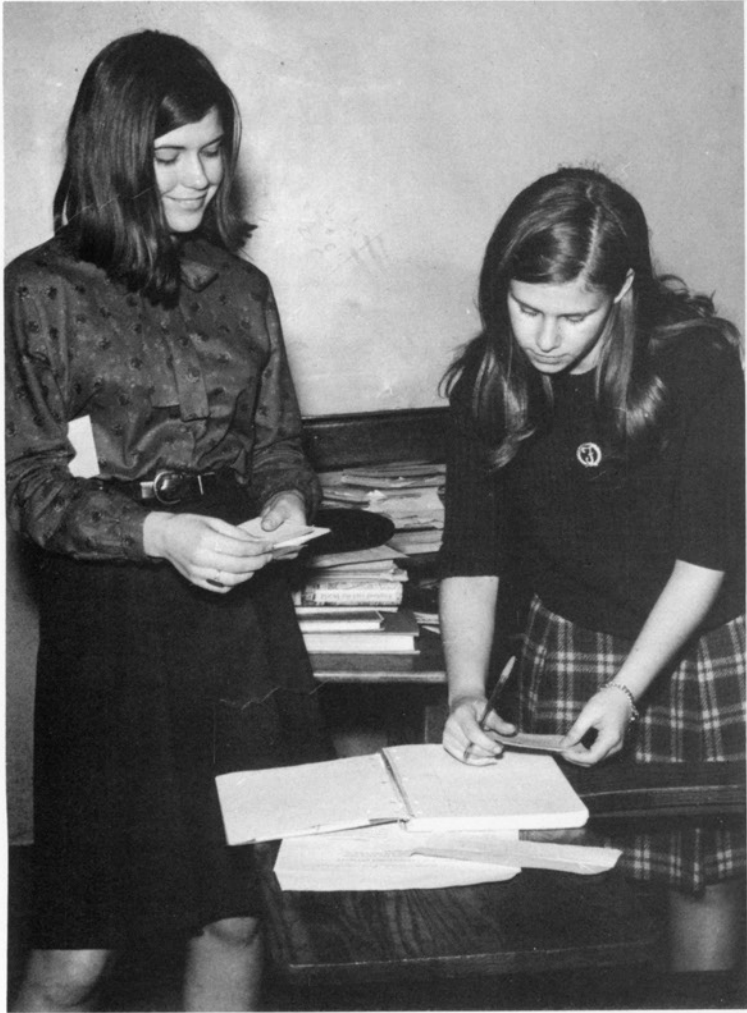

Science laboratories have been remodeled and an audio-visual room constructed to insure up-to-date facilities for those in attendance. Equipment has also been constantly improved. Today, the teachers have every available teaching aid from motion pictures to closed circuit television at their disposal. The teachers and administrators realize that it is only through such modernization programs that the student can compete on an equal basis for college or occupational positions with pupils of other schools.

PHYSICAL EDUCATION

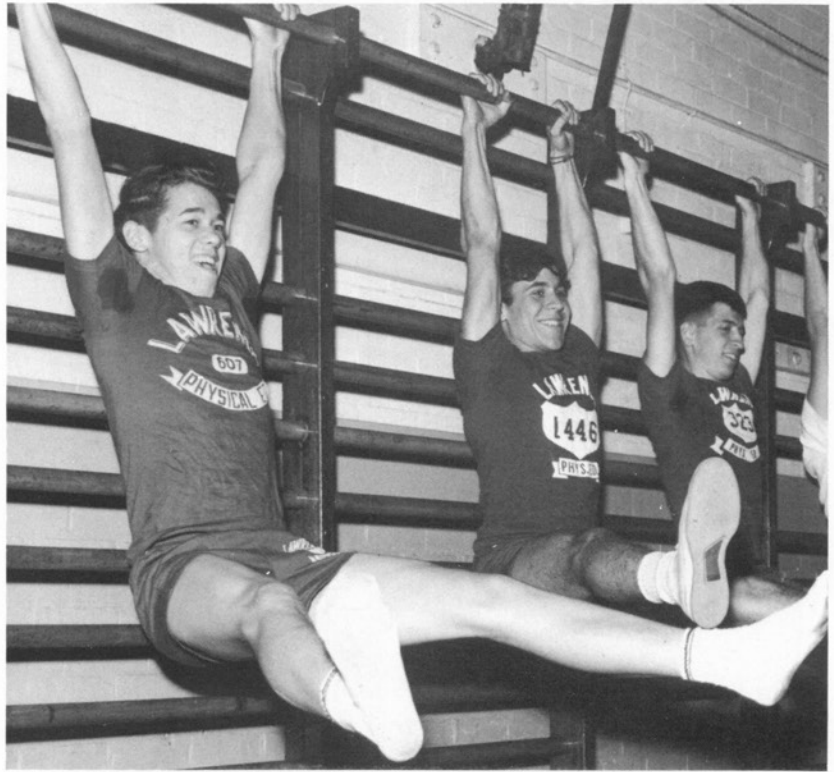

In keeping with the National drive for Physical fitness the Lawrence High School offers an extensive physical education program.

Seniors are required to maintain a high standard of physical fitness through a complete program of calisthenics, gymnastics and organized athletic contests.

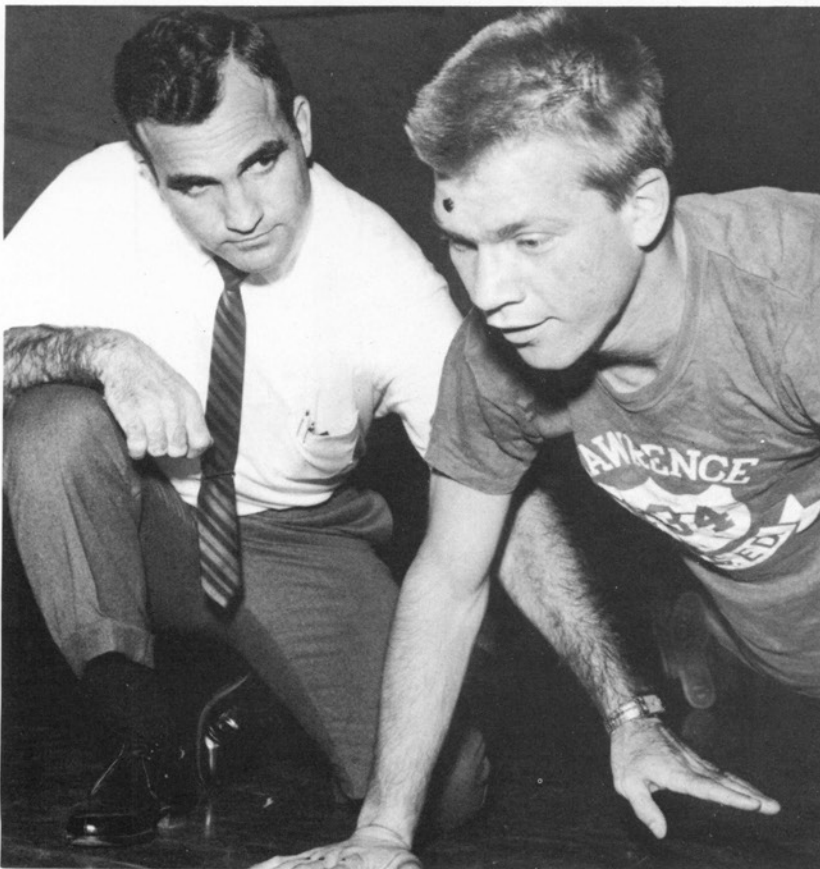

All boys are required to take United States Marine Physical fitness examination which is administered by the physical education instructors during the school year.

This program enables students to develop themselves physically as well as mentally and plays a very important part in the overall curriculum of the school.

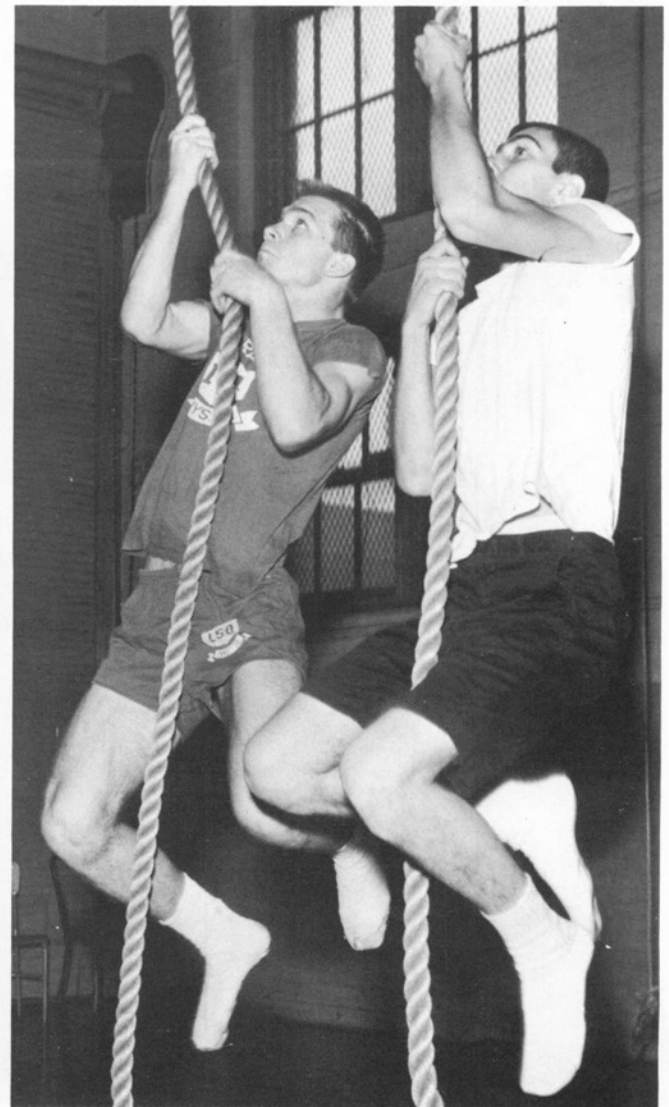

By incorporating the physical education program into the regular school day, it is possible for all students to participate in some form of athletic endeavor.

MANUAL ARTS

The Manual Arts department attempts to familiarize the student interested in the trades with the types of employment available to him. Instruction is offered in woodworking, electricity, printing, sheet metal, auto mechanics, forging and machine shop. The student is introduced to these trades during his first two years. He may then specialize if he chooses to do so. By attending classes in English, mathematics and social studies as well as mechanical drawing, the pupil obtains a diversified education.

With the need for specialized training increasing each year, the student who has obtained a working knowledge of an occupation is in an excellent position to obtain a highly desired position upon graduation.

HOME ECONOMICS

The Home Economics department provides training for girls in the household arts. The course is divided into the major categories of cooking and sewing. The course is available on an elective basis to all girls of the school and provides a fine background in the domestic sciences for both the terminal and college bound student.

The student newspaper is published monthly from October to May. Under the capable supervision of faculty advisor Andrew Moynihan.

The Lawrencian allows participating students a chance to gain fundamental skills in the field of journalism. Newswriting, editing, layout, and reporting are all handled by a group of students under the direction of Editor Ann Gentile.

This student newspaper is somewhat unique as the printing is done by members of the Manual Arts department under the supervision of Mr. Dennis O'Sullivan.

VARSITY FOOTBALL

The Lawrence High School football team showed plenty of spirit during the '65 season, led by Capt. and Center, Robert Champy. The team gave every opponent a run for their money. Senior halfback Fred Dezan, proved to be one of the top scorers in the area and paired with alternating quarterback Joe Casey and Mike Menery, provided the bulk of the Lancer offensive punch. Guards Glenn Moore and Joe Clement along with rugged tackle Louie Pollizotti anchored the forward wall. Highlights of the season included back to back wins over Salem and Beverly who finished second and third in the state. Naturally, local fans were pleased with the victory over Central Catholic and the valiant come-back against arch-rival, Lowell.

Upsets were the keynote of the 65-66 basketball season. The Lancers, with only Captain Joe Casey and Bill Enright returning from last years "tech" tourney quintet, managed to keep the Essex County League race in an uproar by upsetting the final champion Salem and whipping Saugus. The locals salvaged the season with a big win over arch-rival Central Catholic.

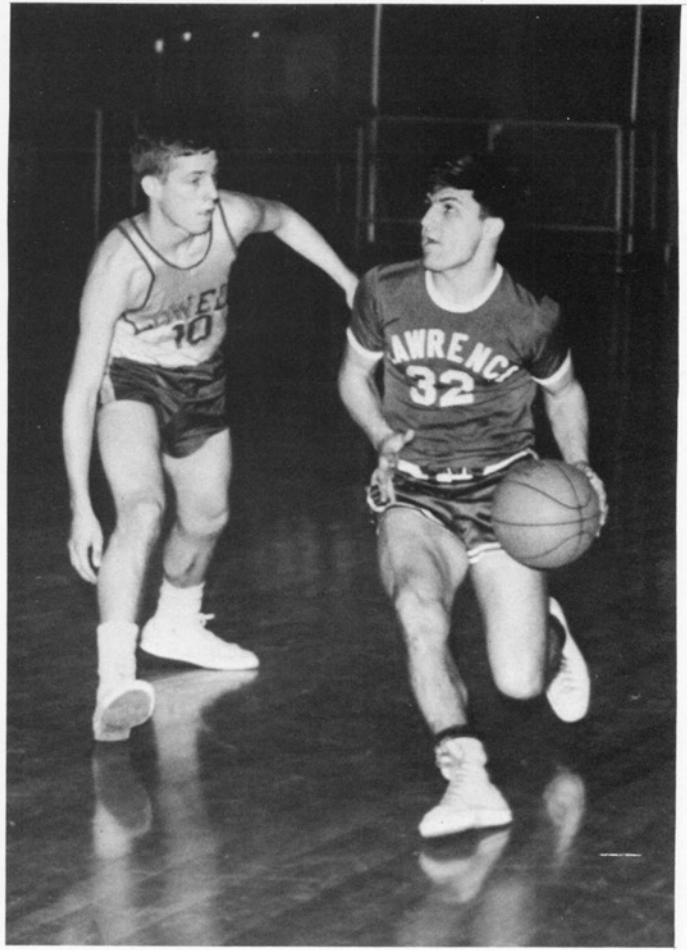

Veterans Joe Casey and Bill Enright provided the bulk of the scoring punch both scoring over 200 points. Eddie Morrison, 6 ft. 1 in. senior center rebounded exceptionally well although many times he was at a 3 or 4 inch height disadvantage. Senior guard Bill Carey was effectively used as a defensive specialist. Juniors Roger LeBlond and Bruce Fielding rounded out the starting five, while senior Paul Rousseau proved to be a very able sixth man, coming off the bench in several situations to ignite the Lancer attack.

The Lawrence High School Hockey team entered their first season of regulation play. After several months of practice the Lancers took on several area sextets in regular scrimmages and managed to show steady improvement, at one point running up a three game winning streak.

With few seniors on the squad it appears the locals will be ready for regulation league play next season. Freshman starters, Mike Huard, Claude Lasonde, and Claude Turgeon show promise of becoming future heroes.

GIRLS BASKETBALL

The girls basketball team enjoyed a successful season in only its second year of inter-scholastic competition. Led by Capt. Barbara Whittaker and Johnney Mae Hester the Lancerettes enjoyed several wins during the campaign.

With both a varsity and junior-varsity squad more than 20 girls were able to take part in the popular sport. Interest also swelled within the student body and a large number of students were on hand to cheer the girls home at the games.

**Before you accept
that first job . . .**

**Look over
your
employer
as carefully
as he does
you**

What's the Company like anyway? Would I be proud to work there? Reputation for square dealing with employees? Pleasant surroundings?

Will I be working with others my own age? Are they friendly? Do they socialize after hours?

Will the boss be reasonable? Appreciate good, hard work, but won't explode if I make a mistake?

Will I make a decent week's pay? Have a chance for raises, advancement, more responsibility? How about fringe benefits?

Is the work challenging? I had what it takes to get through high school. Will they give me a chance to use my brains?

Note: Many young men and women in this area can answer "Yes" to these questions. They work for New England Telephone Company . . . New England's largest employer.

Why not talk with our employment interviewer soon . . . before you graduate? Ask your Guidance Counselor to tell you when and where to apply.
